

NATIONAL BOLT & NUT
CORPORATION

December 09, 2024

Attention: Our Valued Customers

Subject: Conformance to REACH / RoHS Directive

REACH is a European Community Regulation on chemicals and their safe use. It entered into force on June 1, 2007 and applies to products destined to the European Union member states.

In accordance with the REACH regulation, we are pleased to confirm that most products supplied by National Bolt & Nut Corp. meet the REACH requirement. The only exception applies to products that are ordered with cadmium plating or with a Zinc-Nickel coating. All other products do not contain any of the restricted substances from the list dated 10/06/2022, in excess of 0.1% weight by article and are produced in quantities of more than one ton per year.

Further information concerning the list of "substances of very high concern" can be obtained through the ECHA website:

<https://echa.europa.eu/regulations/reach/understanding-reach>

RoHS is a European Directive (#2002/95/EC) that came into force on July 1, 2006 aiming to control the use of certain hazardous substances in the production of new electrical and electronic equipment. Over the years the Directive has been amended, the current Directive 2015/863 was published in 2015 by the EU to add four more restricted substances (phthalates).

At National Bolt & Nut Corp. we support the movement for reducing the use of hazardous materials in new products. REACH / RoHS Compliance must be noted at time of quoting.

If more information is requested please do not hesitate to contact the undersigned.

Sincerely,

John Kipp
Chief Operating Officer
National Bolt & Nut Corp.
